# MAINTENANCE

APPLICATION PROTOCOL

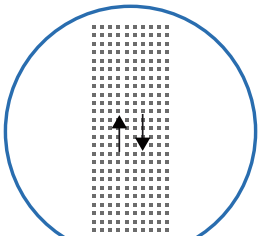

## MAINTENANCE TREATMENT

- Maintenance treatment 1 phial every 30 days..
- Maintenance treatment 1 ampoule every 15 days.
- Maintenance treatment 1 application per week.

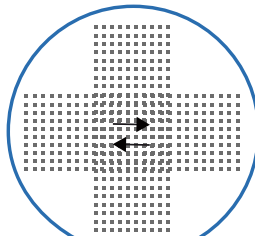

### Instructions for use derma roller.

Dry-hair application, massage the scalp to improve vasodilation and absorption capacity. Apply the derma roller (0,5 mm) gently. Roll up and down the skin 3-4 times using equal speed and light pressure (do not lift roller off the skin). First vertically, then horizontally and the diagonally across both ways.

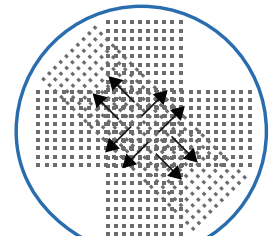

**Caution!** Do not use the roller on infected skin, irritated skin, fungal skin, rosacea, active acne etc. If there is any skin sensitivity stop using immediately and consult a doctor or a skin specialist. If you are not sure about your skin condition consult a dermatologist before using. To ensure hygiene we recommend disinfecting the derma roller e.g. with Barbicide disinfecting solution. Store carefully and keep out of reach of children.

VERTICALLY

HORIZONTALLY
